PROFESSIONAL SUMMARY

Senior Product Designer specializing in AI-augmented workflows (Vibe Coding). Proven track record of reducing design-to-production timelines by 40%. Expert in building complex design systems and high-fidelity prototypes using AI to bridge the gap between UX logic and functional UI.

WORK EXPERIENCE

Pixel506 / 10 Pearls – Remote | September 2021 – 2026 (*Company rebranded to 10 Pearls in January 2025*)

- Accelerated design-to-production cycles by 40% across enterprise-level platforms by implementing AI-augmented workflows and Vibe Coding (Lovable, Bolt.new).
- Architected and maintained a scalable Design System for 500+ pages, reducing the estimated delivery timeline from 3 months to 7 weeks through AI-assisted component generation.
- Led the UX redesign of internal platforms for Agility CMS, optimizing workflows that resulted in a 10% reduction in content upload time, directly increasing client sales velocity.

Key Clients: *CME (Continuing Medical Education), Encora, Bodhi Tree, Propelus, Arkose Labs, Nucleus Fintech, Lombardy, among others.*

UI/UX Designer – Full-Time Embedded Project *Encora (via Pixel506)* | 2022 – 2023

- Worked as a full-time embedded UI/UX Designer supporting product and digital initiatives within a technology-driven environment.
- Collaborated with cross-functional teams to align user experience, business goals, and technical constraints.

UI/UX Designer – Medical Education Platform *CME (via Pixel506)* | 2023 – Present

- Led UI/UX design and redesign initiatives for a large-scale continuing medical education platform.
- Designed complex templates, navigation structures, tables, filters, and CMS-based components.
- Supported content migration and ongoing platform optimization while maintaining usability and design consistency.
