PROFESSIONAL SUMMARY

Senior UX/Product Designer with 5+ years of experience owning end-to-end product design for complex SaaS and enterprise platforms. Expert in Figma, Design Systems, UX strategy, and interactive prototyping, with a strong track record of solving complex problems through user-centered design. Experienced collaborating with Product, Engineering, and Stakeholders in Agile environments across US, UK, and LATAM teams. Early adopter of AI-powered workflows (Claude, Cursor, Lovable, v0, GitHub Copilot) — accelerated concept-to-prototype delivery by 40%. Based in Costa Rica, ready to contribute from day one with zero timezone friction. Bilingual English (C1+) and Spanish (native).

KEY ACHIEVEMENTS

- **End-to-end product design ownership:** Led complete UX design lifecycle — from discovery and UX research through prototyping, design systems, and developer handoff — for enterprise SaaS clients across healthcare and fintech sectors.
- **40% faster delivery with AI workflows:** Pioneered AI-augmented design workflows using Claude, Cursor, Lovable, and v0, cutting concept-to-prototype time by 40% and enabling faster iteration with engineering teams.
- **Enterprise Design Systems at scale:** Architected and maintained Atomic Design Systems for 2 enterprise clients (Propelus, ArkoseLabs), improving cross-team consistency and reducing design debt significantly.
- **Accessibility & scalability:** Led end-to-end UX redesigns achieving WCAG 2.1 AA compliance for healthcare and fintech platforms, directly improving user engagement metrics and stakeholder satisfaction.
- **Agile cross-functional collaboration:** Partnered with Product Managers, Engineers, and QA teams daily in Agile/Scrum environments — aligning design decisions with technical constraints and business goals.

WORK EXPERIENCE

Senior Product Designer — 10 Pearls (formerly Pixel506) — Remote Sep 2021 – Present

Full-time embedded Senior UX/Product Designer owning end-to-end design for enterprise SaaS and digital platforms. Collaborated with cross-functional Agile teams (Product, Engineering, QA, Stakeholders) across US, UK, and LATAM to deliver intuitive, impactful, and scalable user experiences.

UX/Product Designer — Encora Enterprise Platform | 2022 – 2023

- Owned end-to-end UX design for a large-scale enterprise SaaS platform — leading UX strategy, complex navigation redesign, data tables, filters, and CMS component libraries.
- Collaborated closely with Product and Engineering teams in Agile sprints to ensure design specs were technically feasible and delivered on time.

UX/Product Designer — CME Medical Education Platform | 2023 – Present

- Led UX strategy and design for a continuing medical education SaaS platform used by thousands of healthcare professionals globally.
- Designed scalable, accessible component systems (WCAG 2.1 AA) and worked directly with stakeholders to translate complex requirements into intuitive user flows.

- Used AI tools (Claude, Cursor, Lovable) to accelerate prototyping and iterate faster with the engineering team.

SKILLS

UX/Product Design: End-to-End Product Design, UX Strategy, UX Research, User Flows, Wireframing, Interactive Prototyping, High-Fidelity Design, Usability Testing

Tools: Figma (Advanced — Components, Variables, Auto-layout), Design Tokens, Atomic Design Systems, Information Architecture, Sitemaps

AI-Powered Workflows: Claude, Cursor, Lovable, v0, Webflow AI, GitHub Copilot, Canva AI, Perplexity, Gemini, Prompt Engineering

Platforms: SaaS, Enterprise Platforms, B2B, Healthcare, Fintech, EdTech

Collaboration: Agile / Scrum, Cross-functional teams (Product, Engineering, QA, Stakeholders), US / UK / LATAM

Accessibility: WCAG 2.1 AA, Inclusive Design

Emerging: Vibe Coding (React, HTML — launched web apps), Machine Learning fundamentals (in progress)

EDUCATION & CERTIFICATIONS

Bachelor's Degree in Graphic Design — UTN, Universidad Tecnica Nacional

Web Design Technical Program — INA, Instituto Nacional de Aprendizaje

Certifications:

- Google UX Design Professional Certificate
- Master Product Design — Udemy
- UI/UX Specialization — Coursera
- Webflow AI Specialist — Udemy
- Machine Learning Fundamentals — In Progress
